# HIGH MOUNTAIN ADVENTURES

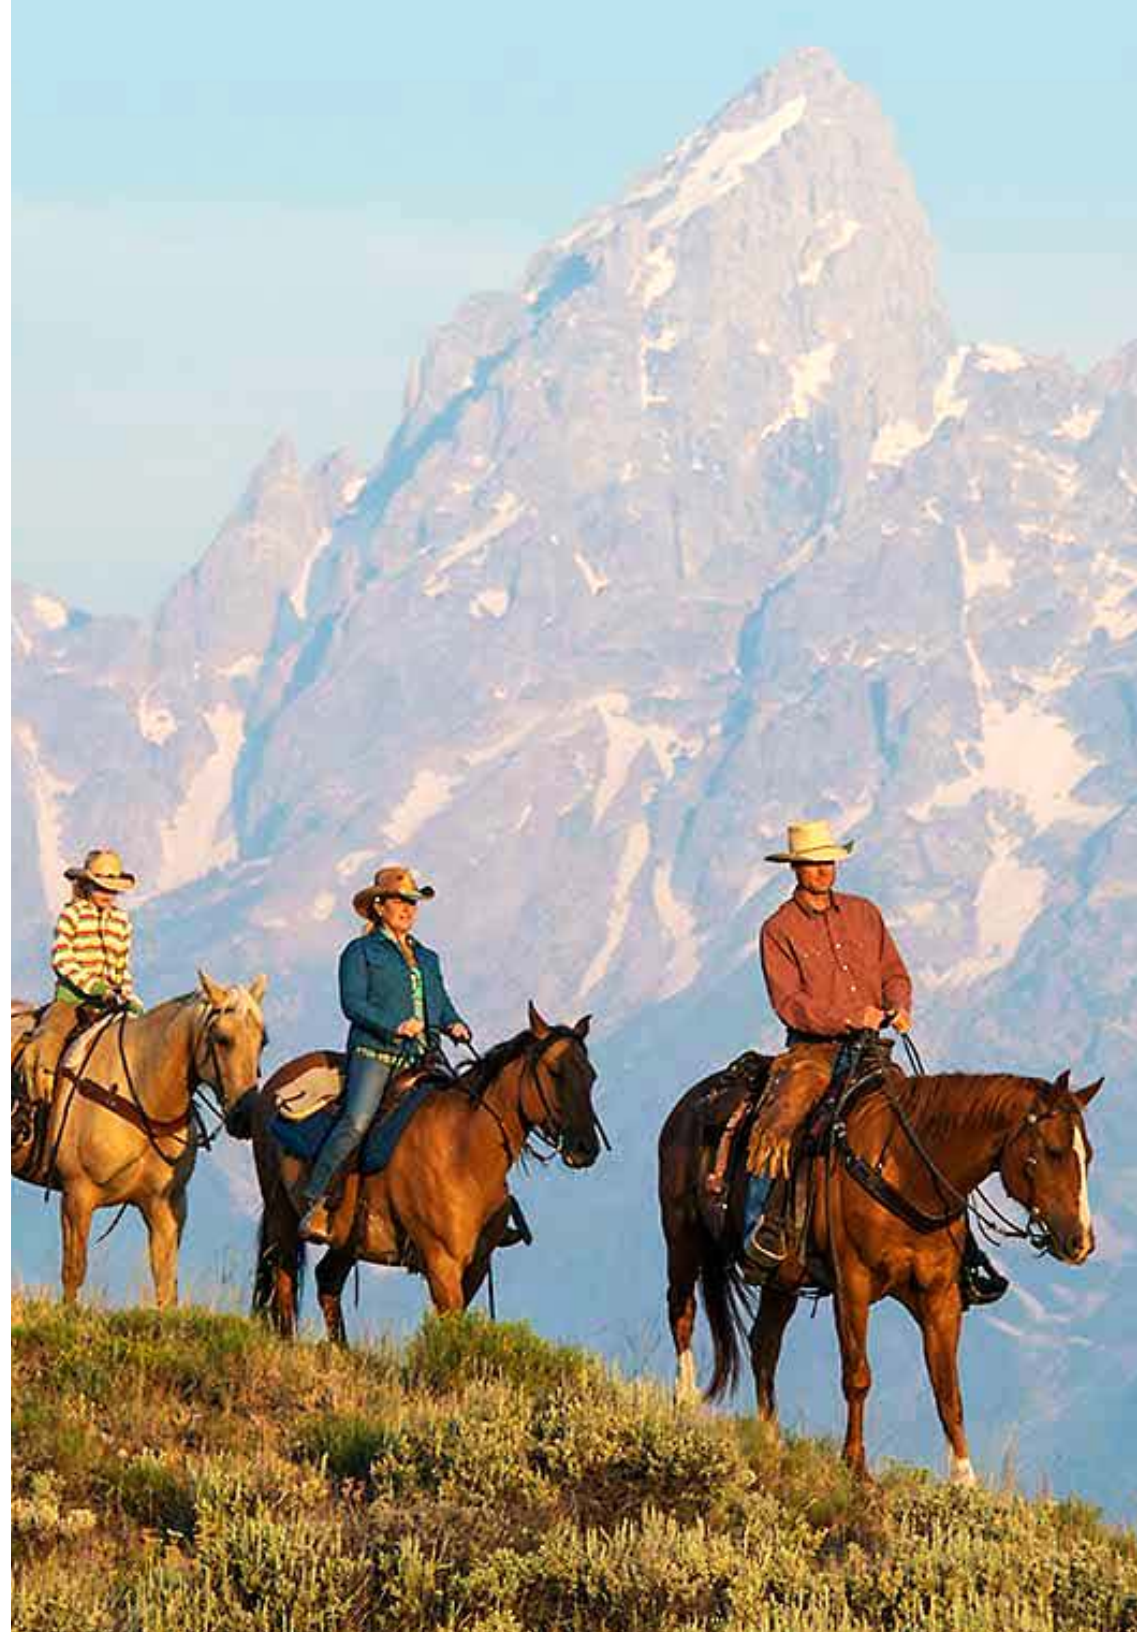

## EQUESTRIAN ADVENTURES

Crystal clear western skies allow you to see Wyoming's magnificent mountain tops and spectacular glacier fields. Ride through the breathtaking scenery and be on the lookout for mule deer, elk, and the occasional moose in their natural habitat on these rides.

There are numerous trails that accommodate riders with all levels of experience from beginner to the most advanced. We will match you with a good horse and head out on the trail.

Bring the family and let them enjoy the peace and solitude whether it's just for the day or spending the night feeding the horses, hiking, enjoying a steak dinner, and relaxing by the campfire. A great way to connect with the family and truly experience the mountains.

## ATV RENTALS & GUIDED TOURS

Experience your next trip to Yellowstone and Grand Teton National Parks with a guided summer tour or on your own. Geysers, wildlife, and amazing views await in this area of Jackson, Wyoming. Explore the most popular national parks in America!

Street-legal 4-seater UTV's provide a fun and unique way to explore the Jackson Hole area. Take a scenic drive through Grand Teton National Park or explore the back roads in the Gros Ventre Mountains or Greys River Range.

Interested in exploring on your own? Rent side-by-side's for a couple of hours or for a full day.

## VIA FERRATA

Via Ferrata, translated as "iron way," dates back to WWI. Italian soldiers built Via Ferratas to safely traverse mountain passes. The recreational use of Via Ferratas is a staple in the Alps for summer adventure, and Jackson Hole is excited to bring this experience to the Tetons. In this activity, climbers are secured to cables to limit the risk typically associated with unprotected scrambling and climbing. The routes also have aids, such as iron rungs, pegs, carved steps and suspended bridges.

There are more than six routes varying in difficulty from introductory zone to more exposed, steep routes. The longest is more than 500 vertical feet and all routes can include a breathtaking experience crossing the 120-foot suspension bridge.

The world class climbing arena now offers even more challenging routes that will push all levels of climbers. The four new routes Straight Shot, Double Cross, Iron Way and Crystal Cave, ascend Casper Bowl and feature Burma and Tyrolean bridges and a 35ft vertical cable ladder. The hardest route in the Ferrata, Crystal Cave, will test your grit, stamina and nerves. Come ready to experience big exposure and harder moves on the Via Ferrata 2.0, with expertise of your guide and the assurance of the Via Ferrata's cable and lanyard system supporting your adventure.

All routes lead you back to the restaurants at Rendezvous Lodge where you can celebrate your mountaineering accomplishments with some delicious food!

Welcome to a bird watcher's paradise where bald and golden eagles are easily spotted, and wildlife is abundant. As anyone who has been in a hot air balloon knows, it is an incredibly peaceful way to interact with your surroundings. Your perspective of the place becomes entirely different. Here in Jackson Hole, there is so much to see from above.

The meandering Snake River - It is the thirteenth longest river in the United States, spanning almost 108,000 square miles. The Lewis and Clark Expedition from 1804-1806 was the first American group to cross the Rocky Mountains and sail down the Snake and Columbia rivers to reach the Pacific Ocean.

The Teton Mountain Range - Instead of looking up at them from the valley, you are looking down on them! You might be lucky enough to see an elk herd - Most likely a treat to see in the fall, Jackson Hole has animals everywhere so don't forget your binoculars!
