SCENIC & WILDLIFE SNOWMOBILE TOURS

A snowmobile tour in Jackson Hole can take you to beautiful natural settings that are otherwise inaccessible in the winter months. Hang on to your hat as an expert guide whisks you across the winter landscape.

BRIDGER-TETON NATIONAL FOREST

Located in Western Wyoming, the Bridger-Teton National Forest offers more than 3.4 million acres of public land for outdoor recreation enjoyment. With its pristine watersheds, abundant wildlife, and immense wild lands, Bridger-Teton National Forest comprises a large part of the Greater Yellowstone Ecosystem - the largest intact ecosystem in the lower 48 United States. Offering nearly 1.2 million acres of designated wilderness, over 3,000 miles of road and trail, and thousands of miles of unspoiled rivers and streams, the Bridger-Teton offers something for everyone.

This HALF DAY trip it's planned to be 5-6 hours long (from pick-up to drop-off) and 10-40 miles are on snowmobile. We recommend bringing your own ski goggles and wearing ski attire. Helmets, snowsuits and boots are included.

THE GROS VENTRE MOUNTAIN RANGE

Part of the Central Rocky Mountains and located west of the Continental Divide in Wyoming. The highest summit in the range is Double top Peak at 11,720 feet. The Gros Ventre Mountain Range is mostly within the Gros Ventre Wilderness of Bridger-Teton National Forest. To the northwest of the range lies the valley known as Jackson Hole. The area is home to elk, moose, deer, black grizzly bear, and many other species. The United States Congress designated the Gros Ventre Wilderness in 1984 and it now has a total of 317,874 acres. Gros Ventre is a popular destination for snowmobiling for novices, as well as seasoned riders.

This SHORT DAY trip it's planned to be 5-6 hours long (from pick-up to drop-off) and 30 miles are on snowmobile. We recommend bringing your own ski goggles and wearing ski attire. Helmets, snowsuits and boots are included.

In winter, the water temperature may be up to 112 °F (44 °C) degrees and can only be access by snowmobile or dogsled. Granite Hot Springs offers visitors beautiful views of the surrounding Bridger-Teton National Forest and is the perfect place for some needed R&R, after days of skiing and snowmobiling.

The HALF DAY trip it's planned to be 4-5 hours long (from pick-up to drop-off) where 20-30 minutes are for soaking in the hot springs and 20 miles are on snowmobile. We recommend bringing your own ski goggles and wearing ski attire. Helmets, snowsuits and boots are included. Don't forget to wear your swimsuit under your clothes for more time at the pool!.

The FULL DAY trip it's planned to be 6-7 hours long (from pick-up to drop-off) where 1-2 hours are for soaking in the hot springs and 20-35 miles are on snowmobile, don't worry about your lunch as we will take care of this for you. We recommend bringing your own ski goggles and wearing ski attire. Helmets, snowsuits and boots are included. Don't forget to wear your swimsuit under your clothes for more time at the pool!.

GREYS RIVER

The tributary of the Snake River, flowing through western Wyoming, is about 62 miles (100 km) long and eventually flows into Snake River in the Snake River Canyon. Greys River is a rushing mountain stream that separates the high Wyoming Range (east) from the Salt River Range (west). In the winter months Greys River is stunning to see. You'll explore the wonderfully groomed trails and serenity of western Wyoming from the comfortable seat of your snowmobile. You will follow the shores of Greys River where the scenery is amazing and the ride is beyond fun.
